PROFESSIONAL SUMMARY

Experienced web developer on front and back-end. Quick learner.

WORK EXPERIENCE

Full Stack Developer | [DagsHub](#)

2021-2024

DagsHub is an MLOps platform based on open source tools, designed to empower ML teams.

- Developed features from idea to production, using *Go, Python, React, GCP, Kubernetes, Docker, Jenkins* and more.
- Since DagsHub is based on *git, GitHub, DVC, Label Studio, MLflow*, I got very familiar with those tools on a deep level through fixing bugs and implementing features.
- Wrote a [blog](#) that got to the [front page of Hacker News](#)

Front-End Developer | [HospiTrack](#) (Hackathon project)

2020

The project was born in a hackathon arranged by Microsoft with the intention to help alleviate coronavirus crisis. We won 1st place, and hope that our technology can help in the future.

- Created a proof of concept
- Worked on a mobile app using *React Native*

CS Teacher Assistant | MEET

2018,
2020

- Taught MEET students as part of a staff
- Taught *Python* coding as well as Web Development with *Flask* framework.
- Helped groups and single students to solve problems in their projects

Private Tutor & freelance coding jobs

2016-2021

I taught various subjects to middle and high school students, as well as *Python* scripts and other projects for individuals and companies.

EDUCATION

Programming Course (Mamram) | IDF

2019

6 months of intense course, where I:

- Studied algorithmics, full stack web development and computer science.
- Worked on projects in *Agile* groups and alone
- Used *Vue.js, Java, Spring boot, git, gitlab, python, C++* and more

Excellence Program | [MEET – The Middle East Entrepreneurs of Tomorrow](#)

2015-
2017

- 3-year educational bi-national program
- The program is taught entirely in English by MIT instructors
- I studied computer science and entrepreneurship skills as *Python Flask* websites & *Lean Canvas* model
- Worked on several startup projects in mixed groups.
