Full-stack engineer with 5+ years of experience shipping production systems as sole engineer and within cross-functional teams.

WORK EXPERIENCE

Freelance Product Engineer / [Magnificode](#)

Stealth startup building a Lidar point-cloud visualizer for various sensors. [More info here.](#) 2025-2026

- Sole engineer taking the product from zero to shipped MVP. Owned frontend, backend, and infrastructure turning rough ideas into shipped features.
- Built Next.js site - authentication, concurrent upload/download and progress tracking to S3, integrated *Deck.gl* 3D point cloud and panorama visualizations, published and maintained *NPM* packages for these components.
- Restructured a *Python* backend to a serverless *AWS Lambda* pipeline processing raw scans into optimized LAZ point clouds up to ~10M points / 1.2+ GB.

Full-time Full Stack Engineer / [DagsHub](#)

2021-2024

- Developed features from idea to production, using *Go*, *Python*, *React*, *GCP*, *Kubernetes*, *Docker*, *Jenkins* and more.
- Wrote a blog that got to the front page of Hacker News and brought 15k organic visitors in one day.
- Re-built the platforms GitHub integration, recorded a video too.
- Engineered platform capabilities around *Git*, *DVC*, *Label Studio*, and *MLflow*, building integrations and managed services on top of their APIs and deployment infrastructure for production MLOps workflows
- Collaborated tightly with product and GTM teams to define and implement features around growth, retention and optimizing onboarding.

CS Teacher Assistant, Entrepreneurship Instructor /

[MEET](#) Summer Program

2018,

2020,

2026

- Taught and guided group projects with: *Python*, *Flask*, *Social Lean Canvas*, *Product Management*, *UX* and *Marketing*.
- Built a gamified site for deliverables submission used by the entire cohort and staff.
- Supported students through group dynamic challenges in cohorts of 80-100 students.

Projects

[Berlin-Sessions.com](#) -

Personal projects (2026)

Berlin Sessions is an active jams calendar with crowd sourced data. #1 on Google for jams in Berlin.

[Wiki Compare](#) -

Personal projects (2026)

Wiki Compare visualizes differences in Wikipedia articles between languages using LLMs for semantic diffing.

[We4Water](#) - Freelance (2026)

Shows realtime water quality monitoring w/ invisible *Grafana* integration. Content managed with *Sanity CMS*.

[DagsHub Academy](#) -

Freelance Dev rel (2025)

Series of technical tutorial videos explaining how to use the platform effectively.

LANGUAGES

Hebrew - Native English - Fluent

ACHIEVEMENTS + FUN FACTS

Won 1st place in a hackathon arranged by Microsoft during COVID.

My blog post got to the front page of [HN](#)

Got 770k views on a tiktok video

I Hitchhiked from Koh Phangan to Ho Chi Min and from Sapporo to Osaka

Playing piano for the last 20 years

Making films for the past 10 years
